# Modular Hygiene Screen

Keep your distance with your clients. Clear Hygiene Barriers made of acrylic and aluminium will help to keep a distance and protect from any particles in the air. They can be placed next to each other to cover wider desks or cashiers. The height of the clear panel can be adjusted easily by sliding in the vertical profiles.

# Free-standing Hygiene Screens

- Creates a protection barrier against direct coughs and sneezes.
- Creates a physical division to help social distancing when groups of people share an indoor space.
- Direct the flow of footfall and create barriers that help protect areas without visually blocking any space.
- These kits can be couriered to location and easily assembled in minutes.
- They can be easily moved into a position to give the most protection.
- They are re-usable. Disassembled, reassembled, moved or repositioned.
- They are modular. Create as large a division as needed.
- The transparent screen allows full communication.
- They can be easily cleaned and disinfected regularly.

# Hygiene Notice Board

Inform people to keep their distance. Suitable for any public area. Use messages such as;

“No more than 2 people at a time”.

The Hygiene Notice Board will pass the necessary health messages to the public easily.

# Queue Management

Sainsburys

- People respond more to queueing when a physical system is in place.
- Direct the queue to the most appropriate space.
- Keep access ways open.
- Create alternative queues to give priority access to the most vulnerable and to NHS staff.
- Each item comes as: 1x Post, 1x Base, 1x Chain/Belt.
